A microscopic view of ultra-thin glass, showing a complex, interconnected network of thin, transparent, crystalline structures. The structures are composed of numerous small, angular, and elongated fragments that form a dense, porous-looking lattice. The overall appearance is that of a highly ordered, yet intricate, crystalline material. The colors are predominantly light blue and white, with some darker blue accents where the structures are more densely packed or where light reflects differently.

U L T R A
GLASS

ULTRA GLASS

Choose any of the following products for larger and wider application. This collection is most suitable for wide areas exposing a plain wall surface or a large panel of wardrobes or area like kitchen, television cabinet. Add a pinch on the effect of beauty to your scape!

The image features a background of a light-colored marble with intricate, swirling patterns in shades of grey, black, and a hint of green. The text 'ULTRA MARBLE' is centered on the page. 'ULTRA' is in a smaller, spaced-out, black, sans-serif font, while 'MARBLE' is in a larger, bold, black, sans-serif font.

ULTRA
MARBLE

ULTRA MARBLE

Our acrylics are more than just colours, and are super textures, too! Hyundai films doesn't consume chemicals and so it is more than decor. It creates a scenic sight. Where the whole market is behind solid colours, our products are more than metal, colours and anything else!
